

AYUSH SINGH RAWAT

+918076733610 ayushrawat011@gmail.com LinkedIn GitHub Roorkee, India

PROFESSIONAL SUMMARY

My toolkit is loaded with modern web technologies in web development and graphic designing. I have a strong foundation in Python, Data Analysis and machine learning. Passionate about transforming data into intelligent solutions through statistical insights, predictive modeling and automation. Seeking a growth oriented opportunity to apply technical analytical and creative problem solving skills in data analytics and machine learning based development.

WORK EXPERIENCES

Backend Developer | Internship

May 2026 - Jun 2026

Nexaiit

Remote • patna

- Designed and optimized database schemas, improving query performance and data management.
- Integrated frontend applications with backend APIs and ensured secure data exchange.
- Tested, debugged, and fixed backend issues while collaborating with the development team using **Git**.
- Implemented file upload, data preprocessing.

PROJECTS

Edureach | GitHub

- Offline Multilingual AI Education Platform
 - Built RAG pipeline with ChromaDB + Sentence Transformers supporting PDF ingestion, semantic chunking, and source citations.
 - Integrated multilingual support for 5+ Indian languages using IndicTrans2 translation pipeline.
 - Implemented dual LLM provider (OpenAI / Ollama) with automatic offline fallback.

Technologies / Tools Used : Python, js, RAG, Html, PDFPlumber, fastapi, ChromaDB, OpenAI

Player Re-identification and Tracking System | GitHub

- This project implements a **player re-identification and tracking system** for sports videos using computer vision techniques. The system leverages **YOLO** for object detection and **Deep SORT** (or similar algorithms) for multi-object tracking.

Technologies / Tools Used : Python, YOLO, OpenCV, DeepSORT

Annsetu

Surplus Resource Redistribution Platform

- Built a full stack platform connecting corporates, NGOs, and volunteers using Flask REST API, PostgreSQL and JWT auth.
- Implemented dual layer multilingual support for 7 Indian languages combining static JSON i18n files with Google Translate API fallback for user-generated content.
- Built a real-time donation lifecycle tracker (pending → accepted → in transit → delivered) with volunteer task assignment, paginated list endpoints, and a live /api/stats counter.

Technologies / Tools Used : Python, HTML5, JS, CSS, Flask, PostgreSQL, REST APIs, Google Translate API

SKILLS

Databases :	MySQL, Oracle
Frameworks & Libraries :	HTML, CSS, TensorFlow, Keras, OpenCV, pandas, numpy, scikit-learn
AI/ML :	CNN, RNN, RAG, Computer Vision, Prompt Engineering
Programming Languages :	Python, C
Data Analyst :	Power BI, Data Visualization, Matplotlib, Seaborn
Tools & Platforms :	Git, Material Design 3

EDUCATIONS

Coer University | Roorkee

Jun 2023 - Jun 2027

B.Tech in Computer Science and Engineering (AI & ML)

- B.Tech in Computer Science and Engineering (AI & ML), Coer University, Roorkee

Vanasthali Public School | New Delhi

Jun 2021 - Jun 2023

Senior Secondary (Class XII)

- Senior Secondary (Class XII), Vanasthali Public School, New Delhi

Blooming Vale Public School | Kotdwara

Jun 2008 - Jun 2021

Secondary (Class X)

- Secondary (Class X), Blooming Vale Public School, Kotdwara
